

Visit to Stowe-IX-Churches Parish Council

Monday 11th March, 2019 at 8pm

The Old School Rooms, Church Stowe

Glynn Richardson, the Deployment Manager of Gigaclear and one of his colleagues will be coming to the next Parish Council meeting to talk about the roll-out of their services in the Parish of Stowe-IX-Churches. Gigaclear have been hired by Northamptonshire County Council to increase the coverage of fast broadband in the County from 95 to 98%. The funding is from central government and so is not compromised by the County Council's current financial situation.

Work in the Parish is due to begin in June, 2019 and be complete in Upper Stowe in December this year and in Church Stowe in March, 2020. Gigaclear offer services to both residential and business customers.

Gigaclear offer three speeds for residential customers, 30Mbps upload and download speeds @£35 per month, 300 Mbps upload and download speeds @ £45 per month and 900 Mbps upload and download speeds @ £75 per month.

So do come along and ask the Gigaclear staff about their services.
